

84-3977

File: GAO

Received from GAO 10/23/84

At the meeting earlier this year with the CIA staff to discuss the Caribbean oil situation, the CIA mentioned that an on-going study of Caribbean oil was scheduled to be completed in early summer 1984. Since [redacted] will be unavailable to speak with us in the near future, we would like to request that [redacted] and/or other CIA representative(s) be made available to discuss with us the results of the completed study.

I somewhat misunderstood what the GAO staff was asking for in the way of a meeting. The staff has a particular CIA effort in mind that is presumably completed by now, and they'll talk w/ any knowledgeable CIA rep.
Thanks, J
